Summer 2025

San Gabriel Christian School Objective Statement

San Gabriel Christian School exists to extend the ministry of San Gabriel Community Church into the community by offering the highest quality education in an environment that encourages the development of committed followers of Jesus Christ.

San Gabriel Community Church Mission Statement

San Gabriel Community Church exists to make known the glory of God to all peoples through the gospel of Jesus Christ in the power of the Holy Spirit.

San Gabriel Christian School will be offering nine weeks of summer programming for students entering Kindergarten through eighth grade. Students will have the opportunity to review academic skills and participate in enrichment classes. Students may attend half or full days from June 9 through August 8 (no school on July 4) and can choose which weeks to attend.

Summer Program Information

Hours:

San Gabriel Christian School summer program is open between 7:00 am through 6:00 pm. Students may enroll for half or full days. Half days are considered 7:00 am to Noon (students must be picked up no later than 12:15 pm) or Noon to 6:00 pm. Students arriving or departing outside of that time frame will be considered full time and billed accordingly. Students picked up after 6 pm will be charged \$1 per minute.

Drop Off and Pick Up:

Prior to attending the summer program you will receive a video detailing how to drop off and pick up your child.

Cohorts:

Students will choose a cohort with two classes available every morning. Students will remain in the cohort throughout the week.

Afternoon Daycamp:

Students attending afternoon daycamp will be placed in grade level groups.

Snacks and Lunches:

Students may bring their own snacks and lunch for break time. Hot lunch is available and must be ordered the week prior to attending camp. Please see the attached menu. Lunches may not be ordered on a daily basis.

Dress:

Free dress day standard apply which means clean, neat, modest and God-honoring clothing. Students must wear closed-toed shoes, such as sneakers, for safety on the playground.

Summer Reading:

The school Library will be open on Thursdays for students from 10:10 am to 3:00 pm, for all students enrolled in the summer school program. This allows for students to check out and return books, as well as take Accelerated Reader quizzes. The last day for library checkout is Friday, August 4.

All books must be returned by August 8. Lost and non-returned books will be charged to your account on August 11.

No refunds will be given for books returned after August 8.

Kindergarten Students:

Students entering Kindergarten will have a scheduled rest period in the afternoon. Resting mats and sheets will be provided for each student. Children may bring a small blanket labeled with their name for use during rest time. Students should also bring a labeled change of clothing in a plastic bag.

First Aid/Illness:

Medications such as Epi-Pens must be stored in the Health Office. Children that become ill during the day will be kept in the Health Office until their parents can be reached for pick up.

Children with fevers or illness must remain at home.

Other Considerations:

Students are not permitted to bring toys or electronic devices (with the exception of those devices being used as part of a class with instructor consent). Students must have parental permission to have a cell phone and they must be put away while on the school campus including break times. San Gabriel Christian School is not responsible for lost or stolen items.

Summer Program Registration

Registration for the San Gabriel Christian School Summer Program officially opens on March 18, 2025. Registration will be on-line.

On-line registration will allow you to:

- Register for classes
- Indicate full or half days
- Purchase lunches
- Enter medical and emergency contact information
- Receive class schedules and confirmations

In addition, the on-line enrollment system will allow payments made by debit or credit cards. Payment plans are available and may be viewed on-line.

Summer 2025 Fee Schedule

All registration must be done on-line at:
www.sangabrielchristian.org/summerprogram

The registration link opens on March 18, 2025

Registration Fee: (non-refundable) \$115 per student - Includes T-shirt

Morning Classes:

\$235 Half Day – students may choose one cohort

\$188 Half Day the week of June 30 - July 3 (No school July 4)

Afternoon Daycamp Add-on:

\$150 per week if enrolled in morning classes

\$120 the week of June 30 - July 3 (No school July 4)

Afternoon Daycamp Only:

\$235 per week if attending afternoons only

\$188 the week of June 30 - July 3 (No school July 4)

Lunches:

\$40 per week – Must be ordered and paid for no later than the week prior to attending classes.

\$32 the week of June 30 - July 3 (No school July 4)

Supply Fee:

Some morning classes require an additional supply fee of \$20

Registration:

A deposit of \$125 per class cohort, and registration fee of \$115 will be required at the time of registration. The deposit and registration fee are non-refundable and non-transferable (**fees may not be transferred to another week**).

Daily Schedule

| | |
|------------------|--|
| 7:00 - 8:20 am | Check in and Before Class Playground Supervision |
| 8:20 am | Morning Assembly |
| 8:40 am | Classes Begin (1st Session) |
| 10:10 - 10:30 am | Snack Time/Recess |
| 10:30 am | Classes Begin (2nd Session) |
| 12:00 pm | Dismissal for those going home |
| OR | |
| 12:00 pm | Lunch for those staying for the afternoon program |
| 1:00 - 6:00 pm | Afternoon Program |
| | Students may be picked up anytime in the afternoon |

Cancellation Policy:

All fees and tuition are non-refundable and non-transferable, with one exception:

If a student cannot attend because of an extended illness or accident (3 consecutive days or more), the program will share the total loss in tuition with the parents by assuming one-half of it in the form of a credit on the account, or refund, at the discretion of the Summer Program Administrator.

Proof of illness by written statement of a licensed physician is required for any type of credit offered by the program.

SGCS reserves the right to dismiss a student whose conduct, behavior or influence is unsatisfactory, or determined by the Summer Program Administrator, not in the best interest of the program. There will be no refunds for this type of cancellation.

Optional Cancellation Insurance Available:

This year we are offering an optional cancellation insurance plan called ACTIVE Refund during checkout. The cost of this plan is 20% of your total purchase. ACTIVE Refund allows you to request a full refund for any reason should you decide you no longer attend a week of camp this summer. There is no restriction in regard to reasons for the cancellation. When you purchase ACTIVE Refund, you will be provided the necessary claim information in your confirmation email.

This is an optional purchase and is not required. This plan must be added during checkout if desired. This plan cannot be added once checkout is complete. This plan is a final-sale purchase and is non-refundable. For additional information, please visit: <https://refund.active.com/terms-and-conditions/termsandconditions-us>

Campus Sick Policy:

Students should be free from obvious symptoms of illness such as a cough, fever, or runny nose in order to be on campus.

Campus Fever Policy:

Students must be fever-free for 24 hours (without fever-reducing medications) before returning to campus. This policy applies regardless of a doctor's clearance.

Week One

June 9 - 13

Cohort 100 - Grades Incoming K Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 101 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - A Frog & Toad Kind of Friendship

Frog and Toad are fictional storybook characters. They may not be real, but we can learn so much from them about “real friendship”. These two are loyal to one another, compassionate, and always thinking of the other. Frog and Toad encourage each other and practice forgiveness. Perhaps we can try to be this kind of friend!

Session 2 - Collage Art

Students will exercise their creativity exploring collage techniques to create unique mixed media pieces.

Cohort 102 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - Flippy Flappy Books

Students will make a book about insects, butterflies, and bats that can be shared with others by coloring and cutting information about each animal.

Session 2 - Reading with Animal Stories

Students will increase their reading skills as they explore stories about animals! Students will love learning vocabulary, spelling, and writing alongside Little Bear, Frog and Toad, Peter Rabbit, and other furry friends.

Cohort 103 - Grades 2-3

Session 1 - Collage Art

Students will exercise their creativity exploring collage techniques to create unique mixed media pieces.

Session 2 - Frog & Toad Kind of Friendship

Frog and Toad are fictional storybook characters. They may not be real, but we can learn so much from them about “real friendship”. These two are loyal to one another, compassionate, and always thinking of the other. Frog and Toad encourage each other and practice forgiveness. Perhaps we can try to be this kind of friend!

Cohort 104 - Grades 3-4

Session 1 - A Fun way of Learning to Follow Directions

Through a variety of activities such as games, building models, following a recipe and written and oral projects, the student will learn how to become a better listener and reader for following instructions and directions.

Session 2 - Dynamic Math

This class will reinforce math concepts learned through activities using playing cards and dice. Students will take home the cards and dice they used.

Cohort 105 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Beginning Basketball

This class is designed to build strong fundamental skills, such as dribbling, shooting, passing, and footwork. Through drills, games, and interactive coaching, participants will sharpen their skills and develop a deeper understanding of the game.

Don't miss this chance to improve and have fun in a supportive and dynamic environment!

Session 2 - Flippy Flappy Books

Students will make a book about insects, butterflies, and bats that can be shared with others by coloring and cutting information about each animal.

Every good and perfect gift
is sent from above.

James 1:17

Cohort 106 - Grades 5-6

Session 1 - Cubism Painting

Viva La Revolution! Abandon realism and join me in painting in the Cubist style of fractured lines, broken plains and tessellated patterns/textures. We will delve into the meaning of this genre and what Picasso and Braque had in mind when they invented it. Then we will create our own Cubist painting.

Session 2 - Beginning Basketball

This class is designed to build strong fundamental skills, such as dribbling, shooting, passing, and footwork. Through drills, games, and interactive coaching, participants will sharpen their skills and develop a deeper understanding of the game. Don't miss this chance to improve and have fun in a supportive and dynamic environment!

Cohort 107 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Origami

Students will put their hands to work on the paper in front of them as they learn to make animals, plants, and other objects out of paper. Along the way, they will be amazed by the works of folders all over the world and see that origami is truly art!

Session 2 - Creative Sewing: Tote Bag

Students will learn how to use the sewing machine and sew their own tote bag to take home.

Cohort 108 - Grades 6-8

Session 1 - The Worlds of William Shakespeare

All the world's a stage in this exciting introduction to the Bard's famous works! Students will observe, engage with, and discuss plays from various genres through diverse activities.

Session 2 - Aerodynamics with Paper Airplanes

Paper folding and aerodynamics come together in this hands-on class where students will fold and fly their own paper airplane creations. The science of flight will be explored as they watch different designs cause their airplanes to spin, loop, glide, and dive!

Cohort 109 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Creative Sewing: Tote Bag

Students will learn how to use the sewing machine and sew their own tote bag to take home.

Session 2 - Cubism Painting

Viva La Revolution! Abandon realism and join me in painting in the Cubist style of fractured lines, broken plains and tessellated patterns/textures. We will delve into the meaning of this genre and what Picasso and Braque had in mind when they invented it. Then we will create our own Cubist painting.

Week Two

June 16- 20

Cohort 200 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

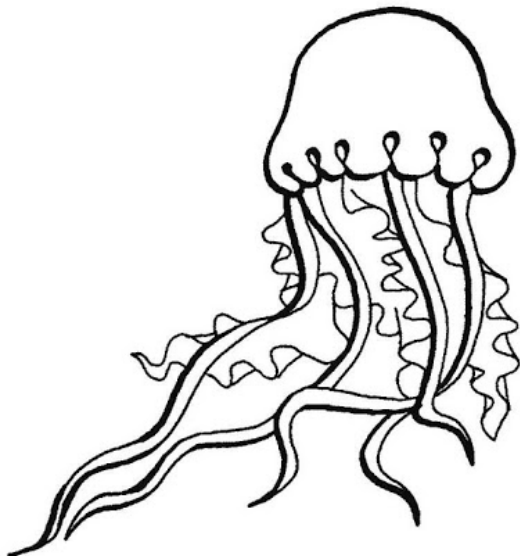

Cohort 201 - Grades 1-2

Session 1 - Reading with the Gruffalo & Friends

Explore the world of The Gruffalo and Friends! Students will read Julia Donaldson's books and review plot, character, setting, and story sequencing.

Session 2 - Mysteries Under the Sea

Life under the sea ~ it is truly another world! Did you know the jellyfish is both predator and prey? Did you know that an octopus is an incredibly brilliant creature? From giant goblin sharks swimming in the deep Mariana Trench to sea dragon dads giving birth to their babies, the undersea adventures are limitless!

Cohort 202 - Grades 1-2

Session 1 - Baseball Math

Students will learn how math and analytics relate to baseball. In addition, students will learn basic baseball skills such as how to properly swing a bat, throw a ball, and proper defense skills.

Session 2 - Growing a Garden

Grow your own garden! We will work in our school's garden learning about plant life cycles, how to care for a garden, the water cycle, composting, different soils, and helpful and harmful insects.

Cohort 203 - Grades 2-3

Session 1 - Growing a Garden

Grow your own garden! We will work in our school's garden learning about plant life cycles, how to care for a garden, the water cycle, composting, different soils, and helpful and harmful insects.

Session 2 - Science: Light and Sound Waves

Energy moves in beautiful waves. Through hands on investigations we can learn how waves help us to see and to hear.

Cohort 204 - Grades 3-4

Session 1 - Mysteries Under the Sea

Life under the sea ~ it is truly another world! Did you know the jellyfish is both predator and prey? Did you know that an octopus is an incredibly brilliant creature? From giant goblin sharks swimming in the deep Mariana Trench to sea dragon dads giving birth to their babies, the undersea adventures are limitless!

Session 2 - Reading: The Wind in The Willows

Welcome to the riverbank, where on an enchanting day, Mole abandons his spring cleaning to find himself in a world of adventure. This class will explore the classic tale, The Wind in the Willows through reading and hands-on activities.

Cohort 205 - Grades 3-5

Supply fee for this cohort: \$20

Session 1 - Archaeology

See history come to life in this archaeology class! Students will learn all about how dig sights are chosen and how artifacts are found, documented, interpreted, and displayed. Along the way, they will be amazed by the stories of some of the greatest archaeological finds of all time!

Session 2 - Meet the Masters- Picasso, Matisse, Van Gogh

Students will learn about the great artists--Picasso, Matisse, and Van Gogh--and study some of their most famous works. The class will then recreate some of their favorite pieces applying the concepts and themes of the works studied. Additional \$20 supply fee.

Cohort 206 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Trompe-l'oeil

Trompe-l'oeil in French means "fool the eye" Students will hone their sculpture skills by sculpting an everyday object as realistically as they can. Is that a can of pencils? Oh! No that's made of clay!

Session 2 - Pickleball Is Here to Stay!

Pickleball is still the fastest growing court game in America. It is a game combining tennis/ping-pong/badminton which can be played cross-generations together with youth, parents, and grandparents! Paddles and wiffle-type balls on a court with a low net are equipment (all provided!) used to play this game with varied abilities. Come learn the basic skills and rules of this game... then, "Play Ball!" Sooooo fun!!!!

Cohort 207 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Reading: The Wind in The Willows

Welcome to the riverbank, where on an enchanting day, Mole abandons his spring cleaning to find himself in a world of adventure. This class will explore the classic tale, The Wind in the Willows through reading and hands-on activities.

Session 2 - Learn to Needlepoint

In this class, we will use colorful yarn to design your own needlepoint coasters and a keychain.

Cohort 208 - Grades 5-8

Supply fee for this cohort: \$20

See history come to life in this archaeology class! Students will learn all about how dig sights are chosen and how artifacts are found, documented, interpreted, and displayed. Along the way, they will be amazed by the stories of some of the greatest archaeological finds of all time!

Week Three

June 23 - 27

Cohort 209 - Grades 6-8

Session 1 - Science: Light and Sound Waves

Energy moves in beautiful waves. Through hands on investigations we can learn how waves help us to see and to hear.

Session 2 - Baseball Math

Students will learn how math and analytics relate to baseball. In addition, students will learn basic baseball skills such as how to properly swing a bat, throw a ball, and proper defense skills.

Cohort 210 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Learn to Needlepoint

In this class, we will use colorful yarn to design your own needlepoint coasters and a keychain. over and take home their own model rocket!

Session 2 - Trompe-l'oeil

Trompe-l'oeil in French means "fool the eye" Students will hone their sculpture skills by sculpting an everyday object as realistically as they can. Is that a can of pencils? Oh! No that's made of clay!

Cohort 300 - Grades Incoming K

Kinderkids

This class is for students that will be attending Transitional or regular Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 301 - Grades 1-2

Session 1 - Reading & Art with Shel Silverstein

We'll read a tale so funny. We'll write a poem or two. We'll laugh at lines too "punny". We'll paint like Shel would do. Jump into the silly with Shel Silverstein!

Session 2 - Math in the Garden

Creative math discoveries will happen in the school garden through symmetry, number patterns, and God's use of math in the natural world.

Cohort 302 - Grades 1-2

Session 1 - Noah and his amazing Ark of Animals

Learn about Noah and his ark of animals. We will learn about Noah's life building the Ark and the tools he used. We will learn about a new animal everyday and how they lived on the ark. There will be fun animal crafts and games.

Session 2 - STEM Tales

Students will spend the week in classic fairytales and short stories. With each story we will do activities to practice skills in science, technology, engineering, art, and math, plus reading and writing. Students will get to take home several projects to demonstrate what they've learned.

Cohort 303 - Grades 2-3

Session 1 - Math in the Garden

Creative math discoveries will happen in the school garden through symmetry, number patterns, and God's use of math in the natural world.

Session 2 - Noah and his amazing Ark of Animals

Learn about Noah and his ark of animals. We will learn about Noah's life building the Ark and the tools he used. We will learn about a new animal everyday and how they lived on the ark. There will be fun animal crafts and games.

Cohort 304 - Grades 3-4

Session 1 - STEM Tales

Students will spend the week in classic fairytales and short stories. With each story we will do activities to practice skills in science, technology, engineering, art, and math, plus reading and writing. Students will get to take home several projects to demonstrate what they've learned.

Session 2 - Intro to Basketball

This class is the perfect introduction to the game for kids who are just starting out. Designed for those with little to no experience, this class focuses on teaching the basic fundamentals in a fun and encouraging environment.

Cohort 305 - Grades 3-4

Session 1 - Science: Electricity

This class will help you learn about a electricity and circuits through hands on investigations!

Session 2 - Reading & Art with Shel Silverstein

We'll read a tale so funny. We'll write a poem or two. We'll laugh at lines too "punny". We'll paint like Shel would do. Jump into the silly with Shel Silverstein!

Cohort 306 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Map Making

The students will learn a basic history of how map making came about and how to create maps. They will make a map from Tolkien's the Lord of the Rings, a place from our world, and will have the chance to make their own map as well.

Session 2 - Felt Creations

In this class, students will enjoy making a variety of crafts with felt and paper, like cup cozies, pin-wheels, garlands, and fun bookmarks! Some of the crafts, like cup cozies, will make fun gifts for parents or friends!

Cohort 307 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Felt Creations

In this class, students will enjoy making a variety of crafts with felt and paper, like cup cozies, pin-wheels, garlands, and fun bookmarks! Some of the crafts, like cup cozies, will make fun gifts for parents or friends!

Session 2 - Science: Electricity

This class will help you learn about a electricity and circuits through hands on investigations!

Cohort 308 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Creative Sewing: Pencil Case

Students will learn how to use the sewing machine and sew their own pencil case to take home.

Session 2 - Persian Chain Bracelet

Persian Chain Bracelet, google it. Yes we can make that in a week. Students will make the intricate pattern of the Persian Chain Bracelet. They will work with a jewelers saw and pliers in the Jump Ring method.

Cohort 309 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Basketball

Take your game to the next level with a focus on advanced skills, such as dribbling, shooting, finishing, and teamwork. If you're looking to compete at a higher level, while growing as a player and a teammate, this is the class for you!

Session 2 - Map Making

Students will learn a basic history of how map making came about and how to create maps. They will make a map from Tolkien's The Lord of the Rings, a place from our world, and will have the chance to make their own map as well.

Cohort 310 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Persian Chain Bracelet

Persian Chain Bracelet, google it. Yes we can make that in a week. Students will make the intricate pattern of the Persian Chain Bracelet. They will work with a jeweler's saw and pliers in the Jump Ring method.

Session 2 - Creative Sewing: Pencil Case

Students will learn how to use the sewing machine and sew their own pencil case to take home.

Week Four

June 30 - July 3

Cohort 400 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Session 2 - Kids Can Cook

Supply fee for this cohort: \$20

Learn the basics of cooking from measuring and following a recipe to kitchen safety and how to properly use simple tools. Each student will take home a mini-cookbook to use at home with their families.

Cohort 401 - Grades 1-2

Session 1 - Exploring the Art Museum

Students will explore famous art museums and the masterpieces they hold. Through hands on activities, students will learn about famous artists, their works, and the stories behind them.

Session 2 - Fun with Math

Students will practice basic math concepts through play and practice! Students use Candyland, Dominoes, and art to practice addition, subtraction, place value, and early number concepts of before/after/between.

Cohort 402 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - Olympic Games

Students will learn the basic skills to multiple team sports through out the week such as Basketball, Volleyball, Kickball and Soccer. Additionally, students will learn about different teamwork strategies and leadership skills through the class.

Session 2 - Kids Can Cook

Learn the basics of cooking from measuring and following a recipe to kitchen safety and how to properly use simple tools. Each student will take home a mini-cookbook to use at home with their families.

Cohort 403 - Grades 2-3

Supply fee for this cohort: \$20

Session 1 - We Can Fly!

Understand the 4 forces of flight (thrust, lift, drag, and gravity) through hands on lessons creating projects daily. This will inspire young engineers and scientists teaching complex concepts in accessible ways.

Session 2 - Exploring the Art Museum

Students will explore famous art museums and the masterpieces they hold. Through hands on activities, students will learn about famous artists, their works, and the stories behind them.

Cohort 404 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Screen Free Fun

Are you tired of sitting around staring at screens, even when you're with your friends? In this class we will learn how to play classic board games and card games, as well as other group games. Next time you need a break from the screens, you will know how to keep yourselves and your friends entertained.

Session 2 - We Can Fly!

Understand the 4 forces of flight (thrust, lift, drag, and gravity) through hands on lessons creating projects daily. This will inspire young engineers and scientists teaching complex concepts in accessible ways.

He has made
EVERYTHING
beautiful
»————»
IN ITS TIME
ECCLESIASTES 3:11

Cohort 405 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Building Character

We will learn what it means to be attentive, respectful, obedient, honest, and compassionate through stories, examples, discussion, and activities.

Session 2 - Geography: Who Needs a GPS?

X marks the spot, right? Not always. In this geography class, students will explore the neglected practice of map reading and making. While imagining what navigating various cities and landscapes of the world would be like, they will learn to identify the features of a map, make navigational choices, and follow the clues to make it home.

Cohort 406 - Grades 4-5

Session 1 - Math Mysteries

Students will practice math and problem solving. This class will use basic arithmetic (addition, subtraction, multiplication, division), fractions, decimals, and place value to solve math mysteries.

Session 2 - Olympic Games

Students will learn the basic skills to multiple team sports through out the week such as Basketball, Volleyball, Kickball and Soccer. Additionally, students will learn about different teamwork.

Cohort 407 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Play the Ukulele

Students learn to play the Ukulele in an ensemble as they build musicianship! We will learn a number of famous melodies; no prior experience with music is necessary.

Session 2 - Building Character

We will learn what it means to be attentive, respectful, obedient, honest, and compassionate through stories, examples, discussion, and activities.

Cohort 408 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Geography: Who Needs a GPS?

X marks the spot, right? Not always. In this geography class, students will explore the neglected practice of map reading and making. While imagining what navigating various cities and landscapes of the world would be like, they will learn to identify the features of a map, make navigational choices, and follow the clues to make it home.

Session 2 - Screen Free Fun

Are you tired of sitting around staring at screens, even when you're with your friends? In this class we will learn how to play classic board games and card games, as well as other group games. Next time you need a break from the screens, you will know how to keep yourselves and your friends entertained.

Cohort 409 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Woodworking 101

Learn the basics of hand-tool woodworking. Begin by making a toy and progress to making a bird-house over the course of the week.

Session 2 - Play the Ukulele

Students learn to play the Ukulele in an ensemble as they build musicianship! We will learn a number of famous melodies; no prior experience with music is necessary.

Week Five

July 7 - 11

Cohort 500 - Grades Incoming K **Kinderkids**

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 501 - Grades 1-2

Session 1 - Animal Tracks

Have you ever seen the footprints and wondered what kind of animal made them? In this class we will explore animal tracks by learning to identify, measure and classify them. What can we learn about an animal by its footprint. Students will create their own animal tracks as part of the class and read and write about animal tracks with a focus on informational text.

Session 2 - Creating with Sound

Students will learn about sound and its properties and explore ways sound is used to create music. Through experimentation with online apps and acoustic instruments students will listen, observe, and create in an exciting and engaging setting.

SunCatcherStudio.com

Cohort 502 - Grades 1-2

Session 1 - The Biggest Story

The Bible is not an encyclopedia or a dictionary. It is the great big story that climaxes in the person of Jesus Christ! In this class, students will zoom through the whole story of the Bible, learning to marvel at the truth and beauty of the greatest story ever told.

Session 2 - Animals and Their Homes

Learn about animals from all over the world! Students will incorporate research, writing, and art to create projects. We will turn our classroom into a zoo! Students will get to take their animal and habitat projects home.

Cohort 503 - Grades 1-3

Session 1 - Creating with Sound

Students will learn about sound and its properties and explore ways sound is used to create music. Through experimentation with online apps and acoustic instruments students will listen, observe, and create in an exciting and engaging setting.

Session 2 - Ultimate Game Week

This week will be jam packed with fun! Everyday there will be a new game to look forward to...ultimate Frisbee, kickball, dodge-ball, and more!

Cohort 504 - Grades 3-4

Session 1 - Animals and Their Homes

Learn about animals from all over the world! Students will incorporate research, writing, and art to create projects. We will turn our classroom into a zoo! Students will get to take their animal and habitat projects home.

Session 2 - Explore the Solar System

Students will learn about the sun, moon, stars and a whole lot more. In this class we are all space explorers! Together we will "visit" the planets in our solar system and take a closer look at the huge universe God has created.

Cohort 505 - Grades 3-5

Supply fee for this cohort: \$20

Session 1 - Gifts from the Kitchen

Learn how to make food gifts such as soups, candies, and nutritious snacks. You will also learn different ways of creatively packaging these items to give as gifts.

Session 2 - The Biggest Story

The Bible is not an encyclopedia or a dictionary. It is the great big story that climaxes in the person of Jesus Christ! In this class, students will zoom through the whole story of the Bible, learning to marvel at the truth and beauty of the greatest story ever told.

Cohort 506 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Science: Candy Labs

Discover matter, energy and science practices while experimenting with candy! Please note, no candy will be eaten in this class!

Session 2 - This is America, Charlie Brown

This class will explore snapshots of American history and innovation alongside the Peanuts gang.

Cohort 507 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Math: The Adventures of Sir Cumference

Using the creative story "Adventures with Sir Cumference" students will study fractions, coordinate planes, circles, circumference, and area.

Session 2 - Creative Sewing: Stuffed Animal Pillows

In this class, students learn to use the sewing machine and with their skills sew stuffed animal pillows.

Cohort 508 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Creative Sewing: Stuffed Animal Pillows

In this class, students learn to use the sewing machine and with their skills sew stuffed animal pillows.

Session 2 - Gifts from the Kitchen

Learn how to make food gifts such as soups, candies, and nutritious snacks. You will also learn different ways of creatively packaging these items to give as gifts.

Cohort 509 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Ultimate Game Week

This week will be jam packed with fun! Everyday there will be a new game to look forward to...ultimate Frisbee, kickball, dodge-ball, and more!

Session 2 - Science: Candy Labs

Discover matter, energy and science practices while experimenting with candy! Please note, no candy will be eaten in this class!

Cohort 510 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Exploring the Elements of Art with Illustrations

Students will explore color, form, line, shape, space and texture by looking at book illustrations by various artists and creating illustrations similar to the artist's style.

Session 2 - Roller Coaster Science

In this class students will participate in multiple science labs to discover velocity, gravity, weight and motion of cars, planes, trains and roller coasters, and build our own working roller coasters models.

Week Six

July 14 - 18

Cohort 600 - Grades Incoming K

Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 601 - Grades 1-2

Session 1 - Sylvester and the Magic Pebble

Let's walk through fun books written by author William Stieg such as Sylvester and the Magic Pebble, Dr. De Soto, Brave Irene and Amos and Boris. Students will read, write and focus on reading comprehension and vocabulary development.

Session 2 - Birds, Birds, Birds

Explore the fascinating world of our feathered friends! Discover how their unique anatomies, profound intelligence, and huge diversity make them truly exceptional animals. We'll learn through reading informational text, bird stories, crafts, and a visit from a very special Senegal parrot!

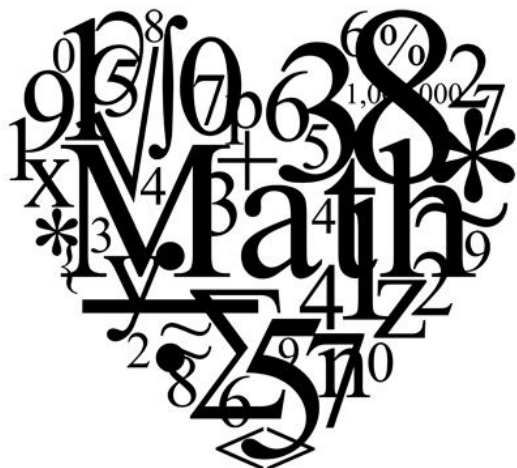

Cohort 602 - Grades 1-2

Session 1 - Read with Me

Students will acquire and improve reading skills, learn to decode and use vocabulary words, improve reading speed and enhance reading comprehension.

Session 2 - Fabulous Foxes

Foxes are mysterious, cunning and sleek. Study all about this forest canine. Discover where they live, how they hunt and what their families are like all through reading, science and art.

Cohort 603 - Grades 2-3

Session 1 - Fabulous Foxes

Foxes are mysterious, cunning and sleek. Study all about this forest canine. Discover where they live, how they hunt and what their families are like all through reading, science and art.

Session 2 - Write with Me

Students will explore different writing strategies such as informational, summary and parts of a friendly letter.

Cohort 604 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Reading: It's Christmas in July!

Journey with me to read and learn about the fantastic traditions of Christmas around the world!

Session 2 - Sketch Like da Vinci, Paint Like van Gogh

This workshop is part art history and part hands-on artwork. Each day we'll learn the story of a different iconic artist and then do art their way. We'll look at what inspired them, paint colorful flowers like O'Keeffe, and make great waves like Hokusai!

Cohort 605 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Birds, Birds, Birds

Explore the fascinating world of our feathered friends! Discover how their unique anatomies, profound intelligence, and huge diversity make them truly exceptional animals. We'll learn through reading informational text, bird stories, crafts, and a visit from a very special Senegal parrot!

Session 2 - Cooking through the Holidays

Students will spend the week learning to make many dishes! Our dishes will correspond to different holidays. By the end of the class, we will make at least one breakfast, lunch/dinner, dessert, and even a drink so that you can impress your friends and family at events all year long. Students will take home an apron and a cookbook with the recipes we made in addition to more to try at home!

Cohort 606 - Grades 4-5

Session 1 - Basketball - Up Your Game

Take your game to the next level with a focus on advanced skills, such as dribbling, shooting, finishing, and teamwork. If you're looking to compete at a higher level, while growing as a player and a teammate, this is the class for you!

Session 2 - Reading: It's Christmas in July!

Journey with me to read and learn about the fantastic traditions of Christmas around the world!

Cohort 607 - Grades 5-6

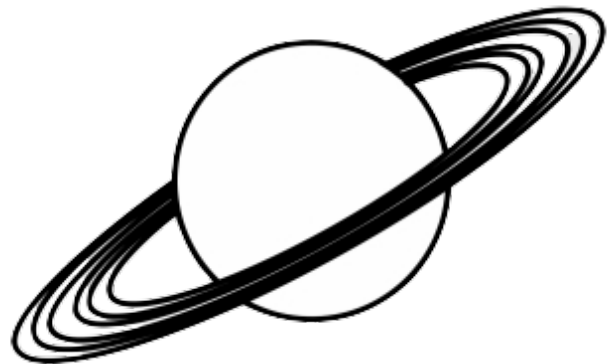

Supply fee for this cohort: \$20

Session 1 - Fun with Woven Tapestry!

Students will use scraps of fabric, yarns and other textiles to create a unique woven tapestry that you can hang on the wall.

Session 2 - Sketch Like da Vinci, Paint Like van Gogh

This workshop is part art history and part hands-on artwork. Each day we'll learn the story of a different iconic artist and then do art their way. We'll look at what inspired them, paint colorful flowers like O'Keeffe, and make great waves like Hokusai!

Cohort 608 - Grades 6-8**Supply fee for this cohort: \$20****Session 1 - Building Bridges**

In this class we will examine different type of bridges including beam, truss, arch, suspension and more. We will explore famous bridges from around the world, then design and build our own. Students will apply geometry and physics as they design and test their bridges for efficiency .

Session 2 - Basketball - Up Your Game

Take your game to the next level with a focus on advanced skills, such as dribbling, shooting, finishing, and teamwork. If you're looking to compete at a higher level, while growing as a player and a teammate, this is the class for you!

Cohort 609 - Grades 7-8**Supply fee for this cohort: \$20****Session 1 - Creative Writing**

Practice the art of creative writing! Each day students will look at well-written short story favorites to see what works and use those great works as inspiration. Students will practice creative fiction, non-fiction, poetry, and fairy tales.

Session 2 - Fun with Woven Tapestry!

Students will use scraps of fabric, yarns and other textiles to create a unique woven tapestry that you can hang on the wall.

Cohort 610 - Grades 7-8**Supply fee for this cohort: \$20****Session 1 -Cooking through the Holidays**

Students will spend the week learning to make many dishes! Our dishes will correspond to different holidays. By the end of the class, we will make at least one breakfast, lunch/dinner, dessert, and even a drink so that you can impress your friends and family at events all year long. Students will take home an apron and a cookbook with the recipes we made in addition to more to try at home!

Session 2 - The Science of Animal Tracks

Have you ever seen the footprints and wondered what kind of animal made them? In this class we will explore animal tracks by learning to identify, measure and classify them. What can we learn about an animal by it's footprint. Students will create their own animal tracks as part of the class and read and write about animal tracks with a focus on informational text.

Week Seven

July 21 - 25**Cohort 700 - Grades Incoming K**
Kinderkids

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 701 - Grades 1-2**Session 1 - Reading and Writing with George & Martha**

Read along with author James Marshall and his hippo friends George and Martha as they share adventures together. The focus of this class is reading comprehension and writing activities. Students will also explore informational texts about real hippos and their habitats.

Session 2 - 3 Little Pigs

This class will focus on reading comprehension and exploring the elements of good story. Students will predict endings, write their own story and create artwork.

Cohort 702 - Grades 1-2

Session 1 - Piano: Introduction to Improvisation

This class will provide an introductory understanding of improvisation in music and beginning skills of sight-reading music and improvisation at the keyboard. Students will learn the basics of beginning improvisation alone, with a partner, and as a group in varying styles and genres. We will explore the beginning basics of jazz theory and accompaniment as we explore the keys. Students will also be introduced to beginning reading on the staff, basic rhythmic exercises, and other beginning musical concepts and terminology. Basic beginning staff reading skills recommended.

Session 2 - Desert Habitats

When you think of the desert, do you think of a hot dry place? It is that, but it is also full of living things both plants and animals as well as interesting land formations. Come and join us as we explore desert habitats around the world.

Cohort 703 - Grades 2-3

Session 1 - A Trip to Europe

Students will explore the geography and history of the continent of Europe. They will learn about the countries, culture, landmarks, history and food that make Europe unique.

Session 2 - City Scape Drawing

Learn how to draw a city using correct perspective, shading, and scale culminating in your own drawing of a city.

Cohort 704 - Grades 3-4

Session 1 - Math: Shake, Shuffle, Roll

Students will participate in math practice using cards, dice and other manipulatives to build their problem-solving skills. Learn new math skills and have fun!

Session 2 - Piano: Introduction to Improvisation

This class will provide an introductory understanding of improvisation in music and beginning skills of sight-reading music and improvisation at the keyboard. Students will learn the basics of beginning improvisation alone, with a partner, and as a group in varying styles and genres. We will explore the beginning basics of jazz theory and accompaniment as we explore the keys. Students will also be introduced to beginning reading on the staff, basic rhythmic exercises, and other beginning musical concepts and terminology. Basic beginning staff reading skills recommended.

Cohort 705 - Grades 3-4

Session 1 - Film Shorts : Story Elements!

Comprehension skills are necessary. Can building these skills be super fun as well? It can when we begin each class viewing a short film and then studying the elements that make these stories on screen so fantastic! We'll learn about theme, inferences, plot, making predictions, conflict resolution, cause and effect, and more!

Session 2 - Reading with Patricia Polacco

Students will read a selection of books by Patricia Polacco and more thoroughly explore plot, character, setting, theme, and story summaries.

Cohort 706 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Emoji Agamographs

Learn the history of emojis, what agamographs are and what your emoji would look like. You will take home an emoji agamograph at the end of the week.

Session 2 - Pickleball Is Here to Stay!

Pickleball is still the fastest growing court game in America. It is a game combining tennis/ping-pong/badminton which can be played cross-generations together with youth, parents, and grandparents! Paddles and wiffle-type balls on a court with a low net are equipment (all provided!) used to play this game with varied abilities. Come learn the basic skills and rules of this game... then, "Play Ball!" Sooooo fun!!!!

Cohort 707 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Let's Make Crochet Jewelry

Learn crochet techniques to create colorful earrings, bracelets, necklaces and headbands from yarn.

Session 2 - Film Shorts : Story Elements!

Comprehension skills are necessary. Can building these skills be super fun as well? It can when we begin each class viewing a short film and then studying the elements that make these stories on screen so fantastic! We'll learn about theme, inferences, plot, making predictions, conflict resolution, cause and effect, and more!

Cohort 708 - Grades 6-8

Session 2 - Fundamentals of Graphic Design

This class will introduce students to the fundamentals of graphic design, equipping them with essential skills in visual communication, layout, and digital creativity. Students will explore key design principles such as typography, color theory, composition, and branding while using Canva to create their own projects. Each day will focus on a different aspect of design, from brainstorming and sketching ideas to digital execution and final presentation. Through hand-on activities and real-world applications, students will develop a foundational understanding of design and leave with a portfolio of creative work.

Cohort 709 - Grades 7-8

Supply fee for this cohort: \$20

Session 1 - Session 2 - City Scape Drawing

Learn how to draw a city using correct perspective, shading, and scale culminating in your own drawing of a city.

Session 2 - Session 1 - Let's Make Crochet Jewelry

Learn crochet techniques to create colorful earrings, bracelets, necklaces and headbands from yarn.

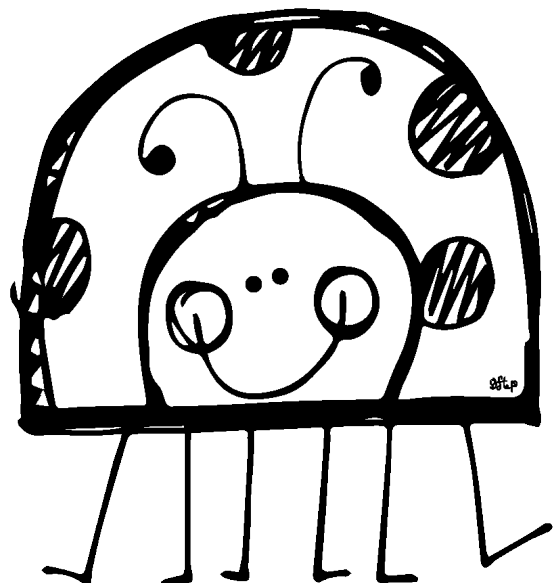

Cohort 710 - Grades 7-8

Session 1 - Fundamentals of Graphic Design

This class will introduce students to the fundamentals of graphic design, equipping them with essential skills in visual communication, layout, and digital creativity. Students will explore key design principles such as typography, color theory, composition, and branding while using Canva to create their own projects. Each day will focus on a different aspect of design, from brainstorming and sketching ideas to digital execution and final presentation. Through hand-on activities and real-world applications, students will develop a foundational understanding of design and leave with a portfolio of creative work.

Session 2 - Emoji Agamographs

Learn the history of emojis, what agamographs is and what your emoji would look like. You will take home an emoji agamograph at the end of the week.

Week Eight

July 28 - August 1

Cohort 800 - Grades Incoming K **Kinderkids**

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience. Each week will have different themes and activities.

Cohort 801 - Grades 1-2

Session 1 - Science: Float and Sink

Explore density, buoyancy, and water displacement while experimenting with objects that float or sink. Have fun with water physics!

Session 2 - Fun with Math

Students will practice basic math concepts through play and practice! Students use Candyland, Dominoes, and art to practice addition, subtraction, place value, and early number concepts of before/after/between.

Cohort 802 - Grades 1-2

Session 1 - Little Critter and Friends

Reading, writing, and STEAM, oh my! We will enjoy reading 5 Little Critter Stories over the week while reading, writing, and creating a STEAM project daily!

Session 2 - Science: Float and Sink

Explore density, buoyancy, and water displacement while experimenting with objects that float or sink. Have fun with water physics!

Cohort 803 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Cookie Baking

This week, students will learn to make and bake several different kinds of cookies. We will learn the basic principles of baking such as timing, ingredient substitutions, and how to change a recipe to achieve a different result in the cookie. Students will work together in teams to create their cookie masterpieces.

Session 2 - Math Games!

This exciting class will help your child review their basic math facts and problem solving skills using dominoes, dice, cards, and more. Every student will be given a game-book and be able to teach you the games to continue practicing and learning at home for more family fun!

Cohort 804 - Grades 3-5

Supply fee for this cohort: \$20

Session 1 - Latch Hook

Students will learn the art of latch hook and take home a finished piece of work.

Session 2 - Design a 3D Farm, Zoo, and City

Design a Farm, Zoo, and City (3D) with Area and Perimeter using only paper. Strategic planning must take place to make your design fit within a certain space and must include certain things such as gardens for the Farm, exhibits for the Zoo, and streets for the City.

Cohort 805 - Grades 4-5

Supply fee for this cohort: \$20

Session 1 - Volleyball

Bump! Set! Spike! Ace! Learn the volleyball basics as well as how the game is played. We will play lots of different volleyball games and even learn ways you can practice and play even when you don't have a net. Students will take home a "jersey" that they have decorated for our end-of-class tournament.

Session 2 - Crochet 101

Learn how to use single crochets, half double crochets, double crochets, and magic rings to make projects that you can gift to your loved ones. We will practice the basic stitches, then complete some projects together, such as coasters, washcloths, and even some cute amigurumi.

Cohort 806 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Creative Sewing: Sew Your Own Water Bottle Holder!

In this machine sewing class, students will sew a functional water bottle cross body holder from fabric.

Session 2 - Cookie Baking

This week, students will learn to make and bake several different kinds of cookies. We will learn the basic principles of baking such as timing, ingredient substitutions, and how to change a recipe to achieve a different result in the cookie. Students will work together in teams to create their cookie masterpieces.

Be kind to
one another,
tenderhearted,
forgiving one
another, as
God in Christ
forgave you.

Ephesians 4:32

Cohort 807 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Design a 3D Farm, Zoo, and City

Design a Farm, Zoo, and City (3D) with Area and Perimeter using only paper. Strategic planning must take place to make your design fit within a certain space and must include certain things such as gardens for the Farm, exhibits for the Zoo, and streets for the City.

Session 2 - Volleyball

Bump! Set! Spike! Ace! Learn the volleyball basics as well as how the game is played. We will play lots of different volleyball games and even learn ways you can practice and play even when you don't have a net. In this machine sewing class, students will sew a functional water bottle cross body holder from fabric.

Week Nine Camp Create

August 4 - 8

Cohort 900 - Grades Incoming TK/K

Kinderkids - Create

This class is for students that will be attending Kindergarten in the fall and will be in a self-contained classroom. Students will participate in reading readiness activities, literature, math games, art, hands-on science, Bible stories, music, dramatic play and practice social skills needed for a successful Kindergarten experience.

Cohort 901 - Grades 1-2

Session 1 - Music of the Movies

This class will provide an introductory understanding and appreciation of movie music (film scores). Each day of the week will focus on a different aspect of movie music or a composer in order to gain a deeper understanding of the impact it has had on the world of music as a whole. Students will learn basic terminology, composer biographies, and will learn to write their own character theme at the end of the week. Students will also get to virtually meet and greet a modern composer who has written for recent short films. Critical listening and writing exercises will supplement throughout the week. Basic beginning staff reading skills recommended.

Session 2 - Reading and Art with Leon Lionni

Read books by author Leon Lionnni such as Swimmy, Frederick, Conelius and Fish is Fish. This class will focus on reading comprehension and exploring the authors unique style of illustrating his books. This class is a great blending of literature and art and a way to show off your creative skills.

Cohort 902 - Grades 1-2

Supply fee for this cohort: \$20

Session 1 - Wild About Wool

Explore all the fun things you can do with wool: comb, card, dye wool, and weave. Read stories about sheep. This class will focus on science, art, and literature, with a visit from real sheep. Baaa...

Session 2 - Clay Creations

Using air-drying clay, we will learn how to hand build several pieces which can later be painted. These pieces will be fun to create and semi-functional, but mostly for display.

Cohort 903 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Global Art

We live in a world of global connections. This week we will experience art based on customs, celebrations, and inventions often using native materials from around the world. Global art combines the fun and creativity of art with the mysteries of history and diversity of cultures.

Session 2 - Wild About Wool

Explore all the fun things you can do with wool: comb, card, dye wool, and weave. Read stories about sheep. This class will focus on science, art, and literature, with a visit from real sheep. Baaa...

Cohort 904 - Grades 3-4

Supply fee for this cohort: \$20

Session 1 - Clay Creations

Using air-drying clay, we will learn how to hand build several pieces which can later be painted. These pieces will be fun to create and semi-functional, but mostly for display.

Session 2 - String Art

Explore symmetry & design while creating pictures & designs using string! Create abstract geometric patterns or representational designs.

Cohort 905 - Grades 5-6

Supply fee for this cohort: \$20

Session 1 - Creative Sewing: Super Cool, Creative Sock Dolls!

Using hand sewing skills, students can customize the hair, face and clothing of their unique sock doll to take home.

Session 2 - Global Art

We live in a world of global connections. This week we will experience art based on customs, celebrations, and inventions often using native materials from around the world. Global art combines the fun and creativity of art with the mysteries of history and diversity of cultures.

Cohort 906 - Grades 5-8

Supply fee for this cohort: \$20

Session 1 - Fun with Crochet

Students will learn basic crochet stitches in order to create their own crochet projects.

Session 2 - Calligraphy 101: Basics of Hand Lettering

Students will learn the basics of hand lettering and calligraphy in class this week. Each student will receive a workbook and lettering pen for the week to trace lettering, practice calligraphy, and provide example projects of hand-lettering. More advanced projects will be made available to students who have already had experience with hand-lettering.

Cohort 907 - Grades 6-8

Supply fee for this cohort: \$20

Session 1 - Macrame Art

This class will teach the basic knotting of cord in patterns to make a wall hanging, belt, or hanging plant holder.

Session 2 - Creative Sewing: Super Cool, Creative Sock Dolls!

Using hand sewing skills, students can customize the hair, face and clothing of their unique sock doll to take home.
